Profile

Computer Science Engineering student (2027) experienced in building full-stack web applications using Java, Spring Boot, React, and MySQL. Strong foundation in data structures, REST API development, and database design. Seeking software engineering opportunities to build scalable and reliable systems.

Projects

Ayursutra Therapy Management System (React, Node.js, MongoDB)

- Built a therapy management platform for scheduling treatments and maintaining digital patient records.
- Created therapy calendar views with real-time session status tracking and progress visualization.
- Developed a practitioner dashboard to monitor patient feedback and manage therapy schedules.
- Integrated role-based authentication for patients and practitioners.

Clean Street Civic Issue Reporting Platform (MERN Stack)

- Collaborated on a team project during the Infosys Springboard Internship using MongoDB, Express.js, React.js, and Node.js.
- Developed REST APIs for issue submission, tracking, and status updates.
- Built an interactive dashboard to monitor reported civic issues and their resolution progress.
- Contributed to frontend integration and backend functionality for a seamless user experience.

Habit Tracker with Analytics Dashboard (Spring Boot, React, MySQL)

- Built a full-stack habit tracking application with analytics and progress visualization.
- Designed a relational database schema and REST APIs to manage habits and user activity.
- Added progress indicators, validation mechanisms, and centralized exception handling to improve reliability.

Library Management System (Spring Boot, JPA)

- Developed backend services to manage book inventory and lending workflows.
- Modeled entity relationships using JPA to support efficient transaction management.
- Added validation logic and CRUD operations to maintain accurate library records.

Skills

- **Backend:** Java, Spring Boot
- **Frontend:** React.js, JavaScript, HTML, CSS
- **Databases:** MySQL
- **Languages:** Java, C++
- **Tools:** GitHub, Postman, Docker, Cloud(AWS)
- **Core CS:** Data Structures, Algorithms, OOP, DBMS
- **Problem Solving:** Solved 150+ algorithmic problems on LeetCode focused on data structures and algorithms

Education

B.E. Computer Science Engineering

Sri Krishna College of Engineering and Technology
CGPA: 8.0 / 10

2027

Diploma in Electronics and Communication Engineering

Sri Ramakrishna Polytechnic College
91.03%

2024

Certifications

- HackerRank SQL (Basic) – [Credential](#)
- HackerRank Problem Solving (Basic) – [Credential](#)
- AWS Cloud Practitioner Essentials (2025)
